1, PWL-token advantages outline

Power Wealth Labs (PWL), a decentralized, tokenized blockchain competitive mining infrastructure, and a cash-for-asset.

PWL mine, the first phase of power construction goals 20WT / S.

PWL tokens are mine infrastructure and fortune assets.

PWL links common personal hobbyists, community users, investors, fund managers, equipment energy providers and large mines through smart contracts. To achieve the construction and operation of digital currency mines large-scale infrastructure, technology control and asset management decentralized decentralized community governance.

Through the easy and efficient flow of tokens, intelligent contract frameworks have brought together tens of millions of lovers of the blockchain community to jointly build governance and share, promoting the technical value of the blockchain and the decentralization of community lovers.

2, The status of the industry

Mining pool operators and equipment suppliers tended to be oligopolistic. Statistics show that China has supplied more than 70% of the world's professional mining machines and mines. The power of individualized decentralized nodes has no clear economic interest in accounting competition.

Individual investment in new professional equipment and mines, facing the financial, technical, human resources, equipment procurement, energy supply, environmental protection, currency fluctuations and many other difficult problems. Joining the proxy hosting and leasing also faces the above problems, and liquidity and corporate ethics risks are difficult to grasp.

Large-scale calculation of mineral resources and mine construction, you need to organize a huge amount of construction funds, advanced engineering and technical team, large-scale energy equipment suppliers and operations. Ordinary individuals and businesses difficult to implement.

3, PWL technology concept:

Power Wealth Labs (PWL) tokens are mine infrastructure and fortune assets. PWL enables everyone to participate in global competing calculations, participating in mine operations, and investing in mining revenue.

PWL diversifies communities and brings together many participants through capital technology to diversify communities and solve the problems of capital technology management and energy and noise management challenges faced by individuals and institutions in the upstream sector of the blockchain industry so as to increase the capital's efficient liquidity and reduce the market Long-term stability of the risk benefit.

Technical capital users, through the purchase of tokens to obtain PWL certificates, Tokens support real-time circulation of the world's major digital exchanges.

PWL Foundation Compliance Operations manages mine construction and profitability. PWL 20-40% net proceeds repurchase tokens.

4, Foundation governance model:

The PWL Foundation is a non-profit organization registered in Cayman, U.K. (to be determined) and is the manager of technical development, compliance operations, community governance, infrastructure and capital operations for the PWL project.

5, Partners:

PUXIN Investment, DATENG Group, BITMAIN, HASHNEST, ANTPOOL, Spark pool, Tentacle capital, the new institutions waiting for updates.

6, Development planning:

A, In 2018, the first quarter, tokens pre-sale, a room 5000KW construction. In the second quarter, 2,000 mine machines were installed and operated, PWL tokens were traded on the exchange. The third quarter, hosted mine platform construction 1000. Q4, start PWL token repo, lease trading platform

B, In the first quarter of 2019, the second-phase engine room will be built at 10000KW. In the second quarter, the second phase mine machine 3000 installation and operation. In the third quarter, the second phase of hosting mining machine 2000 building, three 15,000KW building room. Q4, multi-function digital asset trading platform on the line

C, In the first quarter of 2020, three Mines 5000 units are installed and operating. In the second quarter, the three-phase hosting platform runs to achieve the 20WT / S calculation goal.

7, Financial accounting

The sample is T9: the comprehensive purchase price of the mine is 25000 yuan per unit, the power consumption is about 1.45KW, the calculation power is about 10.5T, and the electricity price is 0.36 yuan /KWH. At present, the ant pool PPS excavates BTC, and the income is about 2.52 dollars /T/24H. About mine facilities and technical management of the \$10 /T/ month.

Each T9 operation cost per month: power $1.5 * 0.36 * 24 * 30 = 388.8$ yuan, management fee 682.5 yuan, machine depreciation charge $1/24 = 1041.7$ yuan, tax 80 yuan, total 2193 yuan.

Income: $BTC 2.52 USD * 6.5 CNY / USD * 10.5 T * 30 D = 5159.7$ yuan.

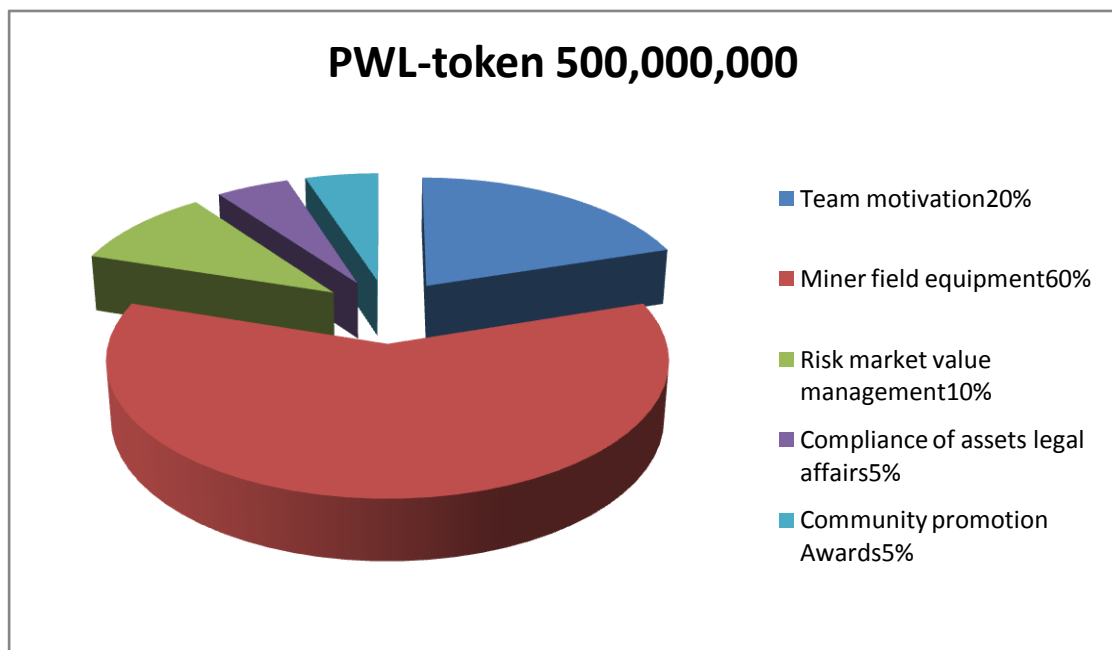

Profit: $5159.7 - 2193 = 2966.7$ yuan.

Monthly profit rate: $2966.7 / 25000 = 11.8\%$ (annual interest rate 141.6%)

Conclusion: The PWL goal is to build a 10,000-site mine and a 5,000-site escrow platform to achieve a 20WT / S calculation. The total investment is expected to be about 50 million U.S. dollars. If the mine grid, compliance and stable operation, according to the current market price accounting, from production to profit takes about 9 months time. PWL return on assets and return on investment plan is excellent.

8, Distribution and use of tokens

The Foundation Limited 20% of the total amount of PWL tokens as a continuous reward for the operation of the founding technical management team. After the first phase of the white paper's planning and development line is connected to the network, it will release 10%. It will release 5% when the second phase of the field is connected to the network, and then release 5% when the third phase of the field is connected to the network.

9, PWL tokens pre-sale program

Total tokens: 500,000,000PWL (500 million pieces)

Total sales: 300,000,000PWL (300 million pieces)

Sales Hard Top: 50000ETH (ETH / USD > 900 \$)

Pre-sale time: From January 18, 2018 18:00 - 18 March 18:00 (SG)

Pre-sale price: 1ETH = 6000PWL

Pre-sale offer:

A. From 18:00 on January 18, 2018 to 18:00 on February 8, 2018,

exchange rate 1ETH = 6000PWL. Another 5% token tokens, single account is greater than 100ETH reward token 10%.

B. From 18:00 on February 8, 2018 to 18:00 on February 28, 2018,

exchange rate 1ETH = 6000PWL. Single account is greater than 100ETH reward 6%.

Token exchange time: Tentatively from 18:00 on March 18, 2018 until the 28th period. If the limit ahead of the subscription, then immediately start counting the exchange of coins.

Locking time: No lock.

Trading Hours: Tentatively before July 1, 2018.

How to Participate: The PWL Foundation accepts ETH participation only.

Please pass the official registration whitelist, access to pre-sale

qualification. In the pre-sale time to the Foundation into ETH, access to

exchange PWL tokens.

10, The development potential evaluation

Power Wealth Labs (PWL), a diversified tokens of blockchain digital currency mines infrastructure and computing assets, with the goal of deploying more than 15,000 mining machines and achieving greater than 20WT / s of computing power, integrated digital asset management platform.

CONCLUSIONS: The (PWL) tokens are mine infrastructure and fortune-tending assets. A global, decentralized community of people, efficiently flowing, sustainably and automatically increasing returns, high-net-worth holdings, and long-term holdings Digital assets.

11, Risk tips

This white paper is used only to describe a PWL Mines team's plan for implementation and does not constitute a recommendation or solicitation of a buy or sell token or any investment. There is no warranty, either expressed or implied, of any of the above information or analysis herein, nor of any contract or commitment of any kind. PWL Tokens are not any valuable asset or security and do not represent any asset or interest or bond.

There is no direct or indirect relationship between the reader's previous and subsequent actions and decisions and the information in

this document. The reader of this article fully understands all the risks of the PWL Mine Project tokens and digital markets and takes full responsibility for any consequences that may arise. The project does not accept the participation of any U.S. citizen or enterprise, or refuses to participate in any country or area where the law is restricted, such as North Korea, Myanmar, Iraq, Afghanistan, Yemen, Nepal, Iran, Syria, and other citizens and enterprises. Whatever the circumstances, PWL Foundation and the team will not be responsible for any direct or indirect damages and liabilities arising out of or in connection with this project.(EN-END)

1、PWL-token 亮点摘要

Power Wealth Labs (PWL), 分散的代币化的区块链数字货币矿场基础设施和算力资产。

PWL 矿场，第一轮算力建设目标 20WT/S。

PWL 代币即矿场基础设施和算力资产。

PWL 通过智能合约，链接普通个人爱好者，社区用户，投资人，基金经理，设备能源供应商和大型矿池，实现建设运营数字货币矿场大规模基础设施、技术控制和资产管理的去中心化、分散式的社区治理。通过代币轻松高效流动特征，以智能合约框架汇聚区块链社区千万爱好者力量共建共治共享，推动区块链技术价值和社区爱好者的分散化发展。

2、行业现状

矿池算力和设备供应商趋于寡头垄断，有统计数据表明，中国已经供应全球专业矿机和矿池算力的 70%以上。个人家庭化分散节点的算力在记账竞争中已经没有明显经济利益。

个人新增投资专业设备和矿场，面临资金，技术，人力，设备采购，能源供应，环境保护，币价波动等众多棘手难题。加入代理托管和租赁同样面临上述问题，并且流动性和企业道德风险难以把握。

规模化的矿池算力和矿场建设，需要组织庞大的建设资金、高级工程技术团队，大型能源设备供应商和运营。普通个人和企业难以实施。

3、PWL 技术理念：

Power Wealth Labs (PWL) 代币即矿场基础设施和算力资产。PWL 让人人参与全球算力竞争记账，参与矿场运营，参与投资获得挖矿收益。

PWL 通过资本技术代币化，分散化社区，汇聚众多参与者，解决个人及机构参与区块链行业上游领域，面临的资本技术管理困扰和能源噪音运营难点问题，增加资本高效流动性，降低市场风险获得长期稳定受益。

技术资本用户通过买入持有代币获得 PWL 权益凭证，

代币支持全球主要数字交易所实时流通

PWL 基金会合规运营管理矿场建设和算力收益

项目 20-40%净收益回购代币。

4、基金会治理模式：

PWL 基金会是独立注册于英属联邦开曼（待定）的非盈利法人组织，是 PWL 项目的技术开发、合规运营、社区治理、基础设施和资本运营的法定管理人。

5、合作伙伴：

普信投资、大腾集团、比特大陆、算力巢、蚁池，星火矿池，触手资本等，新增机构待更新。

6、发展规划：

2018 年 1 季度，代币预售，一期机房 5000KW 建设

2 季度，矿机 2000 台安装运行，PWL 代币上线交易所交易

3 季度，托管矿机 1000 台平台建设

4 季度，PWL 代币回购启动，算力租赁交易平台上线

2019 年 1 季度，二期机房 10000KW 建设

2 季度，二期矿机 3000 台安装运行

3 季度，二期托管矿机 2000 台建设，三期机房 15000KW 建设

4 季度，多功能数字资产交易平台上线

2020 年 1 季度，三期矿机 5000 台安装运行

2 季度，三期托管平台运行，实现 20WT/S 算力目标。

7、财务采样分析

采样假设蚂蚁 T9 机：矿机综合安装价格每台 25000 元，功耗约 1.45KW，算力约 10.5T, 电力价格 0.36 元/KWH，当前蚁池 PPS 挖 BTC 收益约 2.52 美元/T/24H。矿场设施和技术管理费约 10 美元/T/月。

每台 T9 运营成本：电力 $1.5 \times 0.36 \times 24 \times 30 = 388.8$ 元，管理费 682.5 元，机器折旧费 $1/24 = 1041.7$ 元，税杂费 80 元，合计 2193 元。

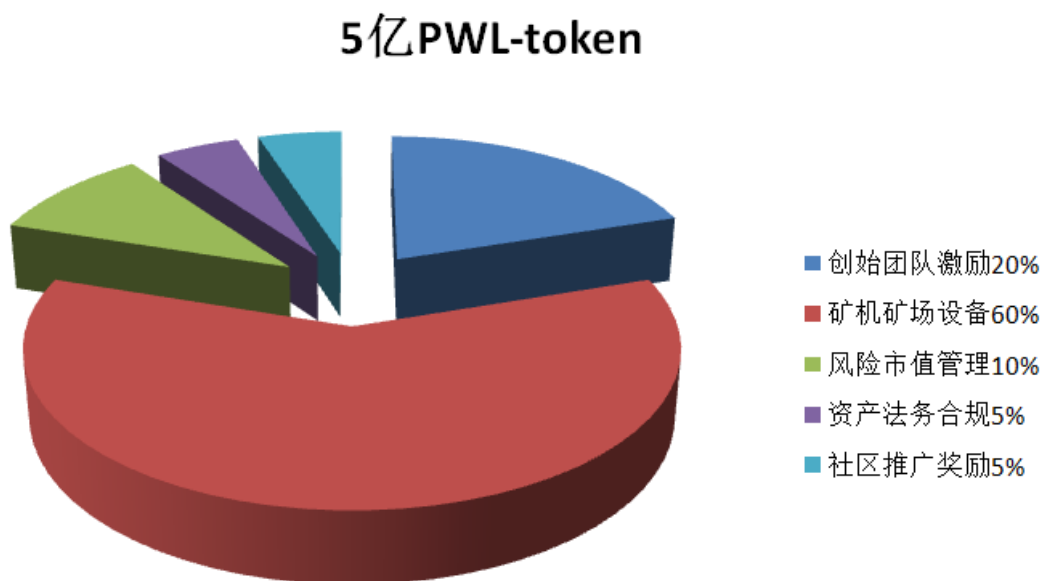

收入：BTC 2.52 美元 * 6.5 汇率 * 10.5 算力 * 30 天 = 5159.7 元。

利润：5159.7 - 2193 = 2966.7 元。

月利润率约：2966.7 / 25000 = 11.8%（年化 141.6%）

结论：项目目标建设 1 万台矿场和 5000 台托管平台，达到 20WT/S 算力，预期总投资约 5000 万美元。假如矿场并网合规稳定运行，按现阶段市场核算从投产至回本约 9 个月时间，资产收益率和投资回报率十分优秀。

8、代币分配使用

PWL 代币总量的 20%基金会初始锁定，作为创始技术管理团队运营项目的持续奖励，在本白皮书规划发展路线的第一期矿场上线并网实现后释放 10%，在第二期矿场上线并网实现后释放 5%，在第三期矿场上线并网实现后释放 5%。

PWL 代币总量的 60%将由基金会通过合规私募市场销售和流通，作为矿池项目建设采购基础设施、技术开发、法务合规监管和社区长期建设运营的支出。

代币总量的 10%用于基金会应对风险和市值管理储备。

代币总量的 5%用于法务合规和安全运营监管。

代币总量的 5%用于社区用户开发和市场推广奖励

9、PWL 代币预售方案

代币总量：500,000,000PWL(5 亿枚)

销售总量：300,000,000PWL(3 亿枚)

销售硬顶：50000ETH (ETH/USD>900\$)

预售时间：从 2018 年 1 月 18 日 18 点-3 月 18 日 18 点(新加坡时间)

预售价格：1ETH=6000PWL

预售优惠：

A、2018 年 1 月 18 日 18 点至 2018 年 2 月 8 日 18 点期间，交换比例 1ETH=6000PWL，另奖励代币 5%，单账户大于 100ETH 奖励代币 10%。

B、2018 年 2 月 8 日 18 点至 2018 年 2 月 28 日 18 点，交换比例 1ETH=6000PWL。单账户大于 100ETH 奖励 6%。

发币时间：暂定 2018 年 3 月 18 日 18 点后十天内，如果额度提前认购结束，则立即开始统计发币。

锁定时间：没有锁定。

交易时间：暂定 2018 年 7 月 1 日前。

如何参与：PWL 基金会仅接受 ETH 参与。请通过官方登记白名单获取预售资格，在预售时间里向基金会转入 ETH，获得 PWL 代币。

交易所信息：发币结束后三个月内上线主流交易所。

10、发展潜力评价

Power Wealth Labs (PWL), 分散的代币化的区块链数字货币矿场基础设施和算力资产, 目标是部署运营最少 15000 台挖矿机和实现大于 20WT/S 算力数字资产管理平台。

结论: (PWL)代币即矿场基础设施和算力资产, 一个全球分散的、人人参与社区、高效流动的、会持续自动增加收益的、高净资产的, 长期持有获利的数字资产。

11、风险提示

本白皮书仅用于阐述 PWL 矿场项目团队的一个待实施计划的信息, 并不构成买卖项目代币或任何投资建议或邀约。本文以上信息或分析没有任何明示或暗示的保证, 也不是任何形式的合约或者承诺。PWL 代币不是任何有价资产或证券, 不代表任何资产或权益或债券。

阅读者之前和之后的任何行为和决定与本文档信息没有任何直接或间接的关联。本文阅读者完全理解 PWL 矿场项目代币与数字市场的所有风险, 并对可能出现的任何后果承担全部责任。本项目不接受任何美国公民和企业参加, 以及拒绝朝鲜、缅甸、伊拉克、阿富汗、也门、尼泊尔、伊朗、叙利亚等法律受限制的国家或地区公民和企业参加。不论任何情况发生, PWL 基金会和团队均不承担任何参与本项目导致的直接和间接损失与责任。以下无正文
